Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

Upon review of the present claims and specification, the Examiner determined that numerous patentably distinct species exist. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species Set 1 (implant materials)

- A.) allograft
- B.) autograft
- C.) xenograft
- D.) synthetic materials
- E.) metallic materials.

Species Set 2 (bone types)

- i. Cortical
- ii. cancellous

Species Set 3 (synthetic materials)

select one synthetic material from the ones listed in claim 35.

Species Set 4 (bone mineralization states)

- x. mineralized bone
- y. demineralized bone

Species Set 5 (implant shapes)

- 1. block
- 2. dowel
- 3. wedge.

Species Set 6 (interlocking structures)

- I. ball and socket
- II. tongue and groove
- III. mortise and tenon.

Species Set 7 (joining elements)

- α.) pin or rod type joining means
- β.) edge joining means.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, from each species set, for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 30, 31, 32, 40-44, 48, 50, and 53-55 are generic.

A telephone call was made to Donald Pochopien on July 27, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made. Mr. Pochopien agreed to allow the Examiner to put the requirement in written form and mail it out.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include

all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

Conclusion

Applicant should specifically point out the support for any amendments made to the disclosure, including the claims (MPEP 714.02 and 2163.06). Due to the procedure outlined in MPEP 2163.06 for interpreting claims, it is noted that other art may be applicable under 35 USC 102 or 35 USC 103(a) once the aforementioned issue(s) is/are addressed.

Applicant is respectfully requested to provide a list of all copending applications that set forth similar subject matter to the present claims. A copy of such copending
